Goal

We need to create a application for fitness enthusiasts to monitor their nutrition intake and track their diet.

An Al powered nutrition analyzer for identifying fruits and their nutrition values based on the user provided images.

To create a full functional application to track and maintain a healthy life style.

Team Idea Workspace

Best Ideas

Al powered fruit Storing the image Remind the classifier to Giving the type which are Water intake identify fresh user about of fruit and uploaded by user remainder for further fruits for further nutrient value as the fruits they notification improvement of analysis of output to user. are allergic to model. nutrition values

Motivational Quotes to keep them motivated
